Wood County Preschool Tuition Information

For families who qualify to pay tuition, a set of invoices will be sent in August, or when child starts. ***Tuition for the last month of school, May, is collected when your child starts.** If your child withdraws early, May's tuition will be reimbursed after you contact us regarding the child's withdraw date.

Since vacation, calamity, and conference days have been taken into account, there will be no refund for absences of that nature, nor for a child's absence due to illness or quarantine. Excess calamity days will be made up. If your income changes during the year, please contact the WCESC Preschool Secretary within one month. We will help you adjust your tuition payments accordingly, if applicable.

If tuition is not paid by the 15th of each month, preschool services will be suspended, and the child will not be able to attend preschool until all due tuition is paid in full.

All checks/money orders should be made payable to the Wood County E.S.C.

EARLY YEARS ARE LEARNING YEARS: 10 SIGNS OF A GREAT PRESCHOOL

If your child is between the ages of 3 and 6 and attends a child care center, preschool, or kindergarten program, the National Association for the Education of Young Children (NAEYC) suggests you look for these 10 signs to make sure your child is in a good classroom.

1. Children spend most of their playing and working with materials or other children. They do not wander aimlessly, and they are not expected to sit quietly for long periods of time.
2. Children have access to various activities throughout the day. Look for assorted building blocks and other construction materials, props for pretend play, picture books, paints and other art materials, and table toys such as matching games, pegboards, and puzzles. Children should not all be doing the same thing at the same time.
3. Teachers work with individual children, small groups, and the whole group at different times during the day. They do not spend all their time with the whole group.
4. The classroom is decorated with children's original artwork, their own writing with invented spelling, and stories dictated by children to teachers.
5. Children learn numbers and the alphabet in the context of their everyday experiences. The natural world of plants and animals and meaningful activities like cooking, taking attendance, or serving snacks provide the basis for learning activities.
6. Children work on projects and have long periods of time (at least one hour) to play and explore. Worksheets are used little if at all.
7. Children have an opportunity to play outside every day. Outdoor play is never sacrificed for more instructional time.
8. Teachers read books to children individually or in small groups throughout the day, not just at group story time.
9. Curriculum is adapted for those who are ahead as well as those who need additional help. Teachers recognize that children's different background and experiences mean that they do not learn the same things at the same time in the same way.
10. Children and their parents look forward to school. Parents feel secure about sending their child to the program. Children are happy to attend; they do not cry regularly or complain of feeling sick.

The Importance of Health Screenings for Preschoolers

Why are health screenings important to my child?

- * Screenings give you valuable information about your child's development.
- * You will become connected with resources to help prepare your child for success in school.
- * Screening will help identify any hearing, vision, health, growth, or general development needs your child may have.
- * For many children, screenings can mean the difference between success and failure in school. If potential problems are detected any of the screened areas, the child then has the opportunity to receive specialized help before entering kindergarten.
- * No concerns about your child's health, growth, or development? Your school district will still need your child's screening information and immunization information on file at school.

In the WCESC Preschools, all children are screened for Vision and Hearing

As part of the health screening, parents should have their child screened or have exam for:

- * Hemoglobin
- * Lead
- * Height
- * Medical Assmt
- * Weight
- * Dental

RECOMENDACIONES SOBRE LA VACUNA CONTRA EL COVID-19

Las recomendaciones sobre la vacuna contra el COVID-19 se han actualizado recientemente para algunas poblaciones. Esta página se modificará para alinearla con el calendario de vacunación actualizado. [Infórmese más.](#)

PROPÓSITO

- La vacunación es una de las mejores cosas que usted puede hacer para ayudar a protegerse y proteger a su familia de enfermedades graves.
- Consulte los calendarios de vacunación, fáciles de leer, por grupo de edad, para ver qué vacunas se recomiendan para cada miembro de su familia.

Consulte con el proveedor de atención médica de su hijo para obtener más orientación si:

1. Su hijo/a padece alguna afección médica que lo/la haga más propenso/a a contraer infecciones.
2. Su hijo/a viajará fuera de los Estados Unidos. Visite [la página web de los CDC sobre salud del viajero](#) para obtener más información.
3. A su hijo/a le falta una vacuna recomendada para su edad.

Llave

 Todos los niños deben ser inmunizados a esta edad.

 Algunos niños deberían recibir esta dosis de vacuna o anticuerpo preventivo a esta edad.

 Los padres o tutores deben hablar con su proveedor de atención médica para decidir si esta vacuna es adecuada para su hijo.

(Harassment, Intimidation and Dating Violence)

File: JFCF

Hazing means doing any act or coercing another, including the victim, to do any act of initiation into any student or other organization that causes or creates a substantial risk of causing mental or physical harm to any person.

Throughout this policy the term bullying is used in place of harassment, intimidation and bullying.

Bullying, harassment and intimidation is an intentional written, verbal, electronic or physical act that a student has exhibited toward another particular student more than once. The intentional act also includes violence within a dating relationship. The behavior causes mental or physical harm to the other student and is sufficiently severe, persistent or pervasive that it creates an intimidating, threatening or abusive educational environment for the other student. This behavior is prohibited on school property, on a school bus or at a school-sponsored activity. Students found responsible for harassment, intimidation or bullying by an electronic act may be suspended. Discipline procedures will not infringe on any student's rights under the First Amendment to the Constitution of the United States. When the behavior is sexual harassment, the Title IX sexual harassment grievance process will be followed, if applicable, prior to imposing any discipline that cannot be imposed without resolution of the Title IX process.

Permission, consent or assumption of risk by an individual subjected to hazing, bullying and/or dating violence does not lessen the prohibition contained in this policy.

The Wood County ESC includes, within the health curriculum, age-appropriate instruction in dating violence prevention education in grades 7-12. This instruction includes recognizing warning signs of dating violence and the characteristics of healthy relationships.

Prohibited activities of any type, including those activities engaged in via computer and/or electronic communication devices or electronic means, are inconsistent with the educational process and are prohibited at all times. The Wood County ESC educates minors about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyber-bullying awareness and response.

No administrator, teacher or other employee of the Wood County ESC shall encourage, permit, condone or tolerate any hazing and/or bullying activities. No students, including leaders of student organizations, are permitted to plan, encourage or engage in any hazing and/or bullying.

Administrators, teachers and all other Wood County ESC employees are particularly alert to possible conditions, circumstances or events that might include hazing, bullying and/or dating violence. If any of the prohibited behaviors are planned or discovered, involved students are informed by the discovering Wood County ESC employee of the prohibition contained in this policy and are required to end all such activities immediately. All hazing, bullying and/or dating violence incidents are reported immediately to the Superintendent/designee and appropriate discipline is administered. When employees have actual knowledge that the behavior is sexual harassment, they must contact the Title IX Coordinator.

(Harassment, Intimidation and Dating Violence)

File: JFCF

The Superintendent/designee must provide the Board President with a semiannual written summary of all reported incidents and post the summary on the Wood County ESC's website, to the extent permitted by law.

The administration provides training on the Wood County ESC's hazing and bullying policy to Wood County ESC employees and volunteers who have direct contact with students. Additional training is provided to elementary employees in violence and substance abuse prevention and positive youth development.

Wood County ESC employees, students and volunteers have qualified civil immunity for damages arising from reporting an incident of hazing and/or bullying. Administrators, teachers, other employees and students who fail to abide by this policy may be subject to disciplinary action and may be liable for civil and criminal penalties in compliance with State and Federal law.

No one is permitted to retaliate against an employee or student because he/she files a grievance or assists or participates in an investigation, proceeding or hearing regarding the charge of hazing and/or bullying of an individual.
